(Affiliated to JNTUK, Kakinada) (Recognised by AICTE, New Delhi)

SRKR Marg, China Amiram, BHIMAVARAM – 534204, W. G. Dt., A.P.

CIRCULAR

Date :03-06-2026

Sub: Revaluation Procedure – As per the circular issued by the JNTUK dated 26-11-2025 with Proc.No. E/JNTUK/ Examination Procedures/ UEC/2025

All the students are hereby informed that the revaluation procedure and evaluation norms have been modified as per the new examination procedures issued by JNTUK. These procedures will be implemented by the College from April 2026 onwards.

Student applying for revaluation are advised to carefully read and understand the following instructions

1. All answer scripts for which revaluation is applied will undergo a **Second Valuations (V2)**
2. The external marks will be compared between the first valuation (V1) with marks obtained in the second valuation (V2). If the difference between V1 and V2 is less than 20% of the Maximum external marks, the final external marks shall be the average of V1 and V2.
3. If the difference between V1 and V2 is equal to or more than 20% of the maximum external marks, the answer script shall be evaluated by a third evaluator (V3). In such cases, the final external marks shall be the average of all three valuations, calculated as:

$$\text{Final External Marks} = (V1+V2+V3)/3$$

**Example -1 (Difference less than 20%)**

- Maximum External marks : 70
- External Pass Marks : 25
- 20% of Maximum External Marks : 14

If

- V 1= 26

**Result : External Pass**

- V2 = 20

Difference between V1 and V2 = 6 Marks (Less than 14)

Final External Marks =  $(26 + 20) / 2 = 23$  (Result : External Fail)

**Example -2 (Difference equal to or more than 20%)**

- Maximum External marks : 70
- External Pass Marks : 25
- 20% of Maximum External Marks : 14

If

- $V_1 = 28$

**Result : External Pass**

- $V_2 = 48$

Difference between  $V_1$  and  $V_2 = 20$  Marks (equal to or more than 14)

The Script will be evaluated by a **third evaluator (V3)**

If

- $V_3 = 35$

Final External Marks =  $(28 + 48 + 35) / 3 = 37$

**Result : External Pass**

**Important Note**

If a student applies for revaluation, the **result declared after the first valuation (V1) becomes completely void.**

Therefore, after revaluations:

- The student may secure **higher marks**,
- The **same marks**,
- **Lower marks**, or
- May **fail** even, if declared pass earlier

Students are advised to apply for Revaluation **after due consideration** of the above rules
